

High Temperature Thermal Processing Systems

ISO 9001:2008 Certified

**Drop Bottom Furnaces
meeting AMS 2750E specifications**

Specifications:

- Meets AMS2750E and MIL specifications
- Meets above aluminum heat treat specs
- Safe and simple operation
- 60 minutes recovery and precise temperature control
- Automatic quenching of parts 7 second or better
- Space-saving design, requires minimal floor space
- Heavy duty construction for long service life

Special Options

- Higher temperature operation for ferrous metal heat-treating
- Programmable temperature controls
- Data acquisition and integration with remote monitoring
- Customized parts, racks and hoists
- Gas or electric heating systems
- Custom sizes are available
